

Instruction

Curriculum Development ¹

Adoption ²

The Superintendent shall recommend a comprehensive curriculum that is aligned with:

1. The District's educational philosophy and goals,
2. Student needs as identified by research, demographics, and student achievement and other data,
3. The knowledge, skills, and abilities required for students to become life-long learners,
4. The minimum requirements of State and federal law and regulations for curriculum and graduation requirements, ³
5. The curriculum of non-District schools that feed into or from a District school, provided that the necessary cooperation and information is available, ⁴
6. The Illinois State Learning Standards and any District learning standards, and
7. Any required State or federal student testing.

The School Board will adopt, upon recommendation of the Superintendent, a curriculum that meets the above criteria. ⁵

Experimental Educational Programs and Pilot Projects ⁶

The Superintendent may recommend experimental educational programs and/or pilot projects for Board consideration. Proposals must include goals, material needs, anticipated expenses, and an evaluation process. The Superintendent shall submit to the Board periodic progress reports for programs that exceed one year in duration and a final evaluation with recommendation upon the program's completion.

Single-Gender Classes and Activities ⁷

The Superintendent may recommend a program of nonvocational single-gender classes and/or activities to provide diverse educational opportunities and/or meet students' identified educational needs. Participation in the classes or activities must be voluntary, both genders must be treated with substantial equality, and the program must otherwise comply with State and federal law and

¹ State or federal law controls this policy's content.

² This section is not dictated by State or federal law, but reflects board work regarding curriculum. Each board should dwell over this section to ensure it articulates the board's intent.

³ State law mandates certain courses of study, but local school boards may set requirements exceeding State law-mandated courses of study (105 ILCS 5/10-20.8 and 5/27-1 et seq.).

⁴ Alternative for unit districts:

5. The curriculum District-wide and articulated across all grade levels.

⁵ The following is an alternative for boards that do not want the sample language's degree of delegation:

The School Board will consider the Superintendent's recommendation and adopt a curriculum that meets the above criteria.

⁶ Experimental educational programs may require the approval of the State Board of Education and an agreement with the affected exclusive bargaining agent (105 ILCS 5/10-19). State law addresses pilot programs for teachers in relation to clinical schools, restructuring, and providing special assistance and support to beginning teachers (105 ILCS 5/2-3.52A).

⁷ The U.S. Dept. of Education (DOE) amended its Title IX regulation to make it easier for schools to have single-sex classes and extracurricular activities (eff. 11-24-06, 34 C.F.R. Part 106). Title IX generally protects students from discrimination on the basis of sex. However, citing recent research suggesting that some students benefit in single-sex classes, the DOE added flexibility to its rules on single-sex classes and activities. The rules are very specific and should be consulted when designing single-sex classes or activities.

with Board policy 7:10, *Equal Educational Opportunities*. The Superintendent must periodically evaluate any single-gender class or activity to ensure that: (1) it does not rely on overly broad generalizations about the different talents, capabilities, or preferences of either gender, and (2) it continues to comply with State and federal law and with Board policy 7:10, *Equal Educational Opportunities*.

Development ⁸

The Superintendent shall develop a curriculum review program to monitor the current curriculum and promptly suggest changes to make the curriculum more effective, to take advantage of improved teaching methods and materials, and to be responsive to social change, technological developments, student needs, and community expectations.

The Superintendent shall report to the Board as appropriate, the curriculum review program's efforts to:

1. Regularly evaluate the curriculum and instructional program.
2. Ensure the curriculum continues to meet the stated adoption criteria.
3. Include input from a cross-section of teachers, administrators, parents/guardians, and students, representing all schools, grade levels, disciplines, and specialized and alternative programs.
4. Coordinate with the process for evaluating the instructional program and materials.

Curriculum Guides and Course Outlines

The Superintendent shall develop and provide subject area curriculum guides to appropriate staff members.

⁸ The last two sections of this policy provide a process for the board to monitor the extent that its ends for curriculum development are being pursued. However, a board may be concerned that these sections offend the board's efforts to delegate authority to the superintendent to manage the district. If so, these sections should be deleted. See the IASB's "Foundational Principles of Effective Governance," http://www.iasb.com/pdf/found_prin.pdf.
