3rd - 8th Grade Promotion and Retention Requirements

Our district's goal is that every child has the support they need to be successful. We know that not all students learn the same way and that some need more time engaged in meaningful learning experiences to reach their full potential. Because some children need a little more time or direction we have set up a promotion process (for non-IEP students) to be sure that your child receives the support they need. Our district offers many opportunities to assist students and has adopted the following steps to help students be successful in their current grade and in the years to come.

In the fall all students will take the Fall Measure of Academic Progress (MAP) tests. Students found to be below their grade level RIT Goal (see attached chart) in reading and math will be **REQUIRED** to do one or more of the following starting October 2, 2017:

- Attend one hour of after school reading and/or math tutoring per week.
- Participate and earn a set number of ribbons/lessons per month using district supported on-line interventions. (determined by grade level)
- Be assigned additional reading and/or math support within the school day.

The parent of any student not agreeing to take advantage of this assistance will need to sign a waiver form declining this additional assistance and acknowledging that their child may be retained in their current grade.

In the winter all students will take the mid-year MAP tests. Students found to be below their grade level RIT goal in reading and/or math and/or is earning below 70% grade average in any of their scheduled academic classes will be required to do the following starting second semester of the school year:

- Attend one hour of after school reading and/or math tutoring per week.
- Participate and earn a set number of ribbons/lessons per month using district supported on-line interventions. (determined by grade level)
- Be assigned additional reading and/or math support within the school day.
- **AND IS AUTOMATICALLY** enrolled in the District's 2018 summer school program and must attend.

Where education and diversity meet to create real world success.

In the spring, all students will take the end-of-year MAP tests.

Student information to know:

- Students identified in January for summer school: Attend the District's 2018 summer school program.
- Students entering grades 3 - 8 for the 2017 - 2018 school year: Complete the required summer reading novel and math packet requirement.
- New students who registered after the January MAP testing: Attend the District's 2018 summer school program.

The parent of any student not wanting to take advantage of this assistance will need to sign a waiver form declining this additional assistance and acknowledging that their child may be retained in their current grade.

All 3rd through 8th grade pupils meeting and completing the above requirements will be promoted to the next grade level at the start of the next school year.

Other Information to Know:

- Students with unexcused absences of more than 15 school days may not be promoted to the next grade level without completing the above requirements.
- Summer school sessions take place Monday through Thursday. Session One: Weeks of June 11, 18, 25. Session Two: Weeks of July 9, 16, 23.

As soon as retention becomes a possibility, parents will be contacted to develop a plan to provide the student the assistance and extra instruction he/she needs to be successful. Should parents have any concerns throughout the year, please keep in touch with teachers via email, voicemail, or scheduling a parent-teacher conference as soon and as often as necessary.

CCSD180 will continue to provide a variety of learning opportunities to ensure that our students meet their academic goals. We sincerely want each and every one of our students to grow and learn and we will do whatever we can to support our students.
